SETTING THE STANDARD

BAR CODE LABELING AND INTEGRATION SOFTWARE

# TEKLYNX® CODESOFT®

CODESOFT is an enterprise-level barcode label design application offering unmatched flexibility, power, and support. Available in print engine, standalone, and network configurations, CODESOFT is designed to meet all of your business needs. Whether your goal is managing assets and resources, controlling distribution channels and stock levels, tracking documents, or managing data records, CODESOFT provides a solution for your organization's most advanced labeling needs.

## CODESOFT Changes and Grows with Your Business

### What if we need to create more complex labels?

CODESOFT is an advanced label design application that gives you the ability to easily design a label, connect it to a database, or add complex barcodes such as HIBC or GS Databar using CODESOFT's intuitive interface.

### What if our processes change?

With CODESOFT's flexibility, you can easily integrate label printing and RFID technology into existing and new business processes, increasing both efficiency and control. Adding CODESOFT to business processes and training new personnel is simple with its intelligent interface, helpful wizards, and simple database connections.

### What if we change printer manufacturers?

CODESOFT supports over 2,200 industry-leading label printers and nearly any other printer where a Windows driver exists. TEKLYNX drivers are developed directly with each printer manufacturer to ensure true WYSIWYG (What You See Is What You Get), from onscreen design to the printed label.

### What if our business grows?

The expandability provided by other TEKLYNX enterprise applications enables CODESOFT to smoothly integrate into any level of enterprise solution as your business grows to require automated label printing, label approval, and secure label storage.

## Four types of licenses available:

Software Online, Software Offline, Hardware and Platinum Software

FEATURES	L	P	E
<b>General</b>			
Runtime and network versions available			•
Number of connected printers (TEKLYNX drivers)	1	1 or 3	Unlimited
Windows Printers	Not supported	Limited to default	Unlimited
WYSIWYG label design	•	•	•
Full UNICODE support	•	•	•
Multilingual user interface (27 languages)	•	•	•
Wizard-based user interface (New Label, GS1, HIBC, Database, and more)	•	•	•
Drag-and-drop label design	•	•	•
Password protection on documents/labels			•
Lock/unlock objects			•
Live preview of graphics and labels	•	•	•
Hidden (unprintable) objects		•	•
Group and ungroup objects	•	•	•
Automatic resizing of objects (Fit to Frame)			•
Color text and printing	•	•	•
Reversed text (foreground/background)	•	•	•
Native (printer) and graphic bar codes	•	•	•
Over 100 industry-standard bar codes	•	•	Circular
Add background pictures to labels and documents			•
OLE objects for insertion of external objects or documents	•	•	•
TextArt (allows curved and rotated text)	•	•	•
Rich Text Fields			•
Table Lookup		•	•
Display multiple records on the same label (List field)			•
Compliance label templates (Military DoD, Healthcare, Shipping, and more)	•	•	•
Multi-tabbed label design	•	•	•
Copy and paste objects between multiple labels	•	•	•
OCX Field			•
Object Order	•	•	•
<b>Tools</b>			
Printer code converter		•	•
Click Print	•	•	•
Printing Logfile (label name, printer, user, and more)			•
Directly modify printer code (Job Modifier)	•	•	•
Download fonts to thermal printers (Font Downloader)	•	•	•
Define user access rights (User Manager)			•
Retrieve data from serial devices (COMet)		•	•
Export label as a graphic for use in other applications			•
Import labels from FTP			•
Import printer code from other applications	•	•	•
RFID tag support			•
Label Comparison Tool			•

- L** Lite
- P** Pro
- E** Enterprise

TEKLYNX®  
software **MAINTENANCE**  
Agreement

**1-Year SMA (Software Maintenance Agreement) included with every purchase!**

**Supported by:** Windows® XP, Server 2003, Server 2008, Vista and Windows 7

FEATURES	L	P	E
True Type Font Substitution			•
Layers (header and footer labels and dual side printing)			•
<b>Add-ons</b>			
Command File Interpreter (CFI) - Automated printing		•	•
Printer Object Files (POF) - Export printer code			•
Form Viewer - View custom-made forms for data entry/bar code scan and print			•
Form Designer - Create custom interface			•
Pocket Printing			•
<b>Programmability</b>			
ActiveX Basic		•	•
ActiveX version 1 and 2, .NET Wrapper, Command line			•
<b>Database Management</b>			
Database wizard	•	•	•
Database Manager with batch printing options	•	•	•
OLE DB / ODBC / ASCII database connectivity	•	•	•
Access multiple tables simultaneously			•
Filters on tables	•	•	•
SQL mode/query builder (advanced users)			•
Create/edit query	•	•	•
Save query			•
Grid view/print	•	•	•
<b>Data Source Management</b>			
Flexible date/time stamping (real time and offset)	•	•	•
Select value from custom list (Pick List)	•	•	•
Variable graphic images	•	•	•
Shared variables on multiple labels	•	•	•
Control the display of variable data (Output Mask)	•	•	•
Counting bases (6 bases and custom)	Limited	Limited	All
Advanced counters (linked, shared, rollover)			•
Accumulate value	•	•	•
Combine data or multiple fields in object	•	•	•
Port Watch			•
<b>Form Management</b>			
Customizable for errorproof data entry	•	•	•
Require specific input data (Input Mask)	•	•	•
Define minimum input length	•	•	•
Automatic prompt	•	•	•
<b>Cross Compatibility</b>			
Integration with SAP, LIMS, and other ERP systems (SENTINEL)			•
Reprint & version control for audit compliance (LABEL ARCHIVE)			•
